

SOUTHEAST REGIONAL EV READINESS CONFERENCE SERIES

October 23 | Columbia, SC
Columbia Metropolitan Convention Center

October 24 | Atlanta, GA
Atlanta Civic Center

October 26 | Montgomery, AL
Montgomery Convention Center

We invite you to participate in the first Southeast Regional Electric Vehicle Readiness Conference Series, focused entirely on bringing EV's and charging infrastructure to the Southeast. **Join local governments, fleet managers, property managers, employers, and utilities as they learn about products and best practices for deploying electric vehicle technologies.** This one-day event will feature attendee workshops, an exhibitor hall and Ride-n-Drive to showcase your products throughout the day.

With low electricity rates and great EV incentives, the Southeast region provides a unique market opportunity for EV's and charging equipment. **Sponsoring and exhibiting at the Southeast Regional Electric Vehicle Readiness Conference Series is an easy and cost-effective way to set your company apart from the competition and position it at the forefront of the Southeast EV market.**
