

## Energy Use and Resources Subcommittee

March 10, 2016 Meeting Notes

The following action item follow up commitments were made:

### Action Item #1 (Service Territories & Map):

- Jimmy Bagley offered to draft language regarding municipal utilities, including an appropriate caution about shifting service territories as municipalities annex property.
- Expected delivery: Week of March 14
- All who have not yet done so should review the territory map and send in comments if any
- Expected delivery: Week of March 14

### Action Item #2 (SAIDI/SAIFI Data):

- SCE&G, Coops will provide SAIDI/SAIFI data by Wednesday March 16.
- Santee Cooper will provide theirs by end of month/early April
- Question of whether to aggregate data for the state as a whole addressed at a subsequent meeting

### Action Items #3 & #4 (Consumption Electricity & Gas):

- For the sake of conformity, consumption information will be as of the end of 2015. Dow will supply EIA data as a placeholder for those
- Expected delivery: Coops – April; SCE&G & Duke – Friday March 18; Santee Cooper – April
- Gas used for transportation will be considered in that category, not here.

### Action Item #5 (EE/DR):

- ORS will add results column. Results will be cumulative, not per year. Reports should include the start/end of the period reported...the “window” Include number of commercial/industrial opt-outs as a percentage of all customers, or as percent of sales, if available
- Expected delivery date: SCE&G, Duke and Co-ops mid-week 3/14; Santee Cooper, April;

### Action Item #6 (Generating Assets Inventory):

- ORS will update the spreadsheet to include tabs for merchant plants and biomass, and will columns for in service date, retirement date, and relicensing date (for nuclear units).
- If there is co-ownership of a facility, utility will report to avoid double counting.
- DHEC will check permits to help identify biomass plants not directly connected to utility.
- ORS will contact Lockhart to ensure they are properly included.

### Action Item #7 (A236 Narrative):

- Complete.

### Action Item #8 (Capacity/Generation):

- John Raftery will work with other utilities to update the pie charts. Provide allocated, unallocated and EIA pie charts.
- Expected delivery date: April
