

Action Items

SC Energy Plan Phase I - Subcommittee #2: Natural Gas Infrastructure

2. ORS will request utilities to provide a policy description related to service for alternate energy sources instead of electricity.

Target Date: 3/29/2016

3. ORS will compile the information and share it with the subcommittee.

Target Date: 3/29/2016

REVISED QUESTION:

Does your organization impose a fee, lot charge or other assessment to customers or developers that choose to use an alternate energy source instead of electricity? If so, please provide a description of the policy and how the assessment is determined. Alternate energy sources could include fuel oil, propane, natural gas or renewable sources of energy such as solar or wind.
